GO IN WITH AN OPEN MIND

VOLUNTEER

“When I first started volunteering for Aiken Senior Life Services, I knew I would be delivering meals, but what I really deliver is joy. I’m often the only person the seniors on my route see all day. The smile on their faces when they greet me at the door is so rewarding, and I often think the interaction is more fulfilling to them than the meal I bring.” -Arthur W. (Buzz) Rich

Meals On Wheels

At Aiken Senior Life Services, I

know that what I really deliver is joy.

On my route see all day. The

smile on their faces when they greet me at the door is so rewarding, and I often think the interaction is more fulfilling to them than the meal I bring." -Arthur W. (Buzz) Rich

Meals On Wheels

Meals on Wheels has been guided by a single goal since the first known U.S. delivery in 1954 – to support our senior neighbors,

to recipient's homes are also given to each volunteer when delivering meals. Cat and dog food is delivered when available, as well as a copy of the Aiken Standard for seniors who are interested.

Enrichment

If you have a heart for seniors and want to give back to the community in a meaningful way, this is the opportunity for you! This Opportunity allows for volunteers to assist ASLS in ways that may include leading activity sessions, assisting with upcoming events, putting on performances, and more. This is ideal if you have a skill to share, or an idea that you feel would benefit our senior community. We would love your assistance in making this program as beneficial to our seniors as possible.

Let's Go Bingo

Let's Go Bingo is a new bingo operation that is hosted and coordinated by Aiken Senior Life Services. Games are held every Monday evening from 6pm - 8pm with the exception of Holidays. Volunteers would arrive early to help set up, operate one of the various stations (i.e. check in, ticket sales, floor runner, ball caller, etc.), and help break down after. However volunteers can opt to help with one or more parts of said process depending on their availability.

Community Garden

Learn how to keep our garden bountiful and beautiful through the guidance of the Aiken Master Gardeners. Volunteers will be educated on procedures set in place for the garden's success as they participate in routine garden maintenance. [Click here to sign up!](#)

Become a volunteer today by completing the following volunteer application form to ASLS. Individuals who do not pass both a background check and a sex offender registry search will not be eligible.

Would you like to pin MOW Scheduler to your taskbar?
chrome.exe would like to pin MOW Scheduler to the taskbar.

Yes No, thanks

YES, PIN TO TASKBAR

PINS TO BOTTOM OF COMPUTER

Instructions

The installation process uses a browser feature called "Add to Home Screen (A2HS)" which is supported in most mobile browsers and some desktop browsers, but the exact installation process differs slightly depending on what type of device you have. Start by loading MOW Scheduler in your browser. Then...

Google Chrome - Mobile (Android)

On Android mobile devices with Chrome you will see a blue button labeled "Add to Home Screen" at the bottom of the MOW Scheduler application menu, and a option to "Install app" on the browser's "overflow" menu. Either of these options will work. *The install options may not be available on non-Android devices.*

Google Chrome - Desktop

On Chrome desktop browsers on Windows or Linux (or larger tablet devices) you will see a blue button labeled "Add to Home Screen" on the right side of the main MOW Scheduler navbar. There will also be a new icon labeled "Install" inside the browser's URL bar. Both of these options accomplish the same thing. On Windows, the installation process will automatically add a desktop shortcut and add the application to the Start menu. When you start the application, the MOW Scheduler icon appears on the taskbar and you may pin it to the taskbar like normal Windows applications.

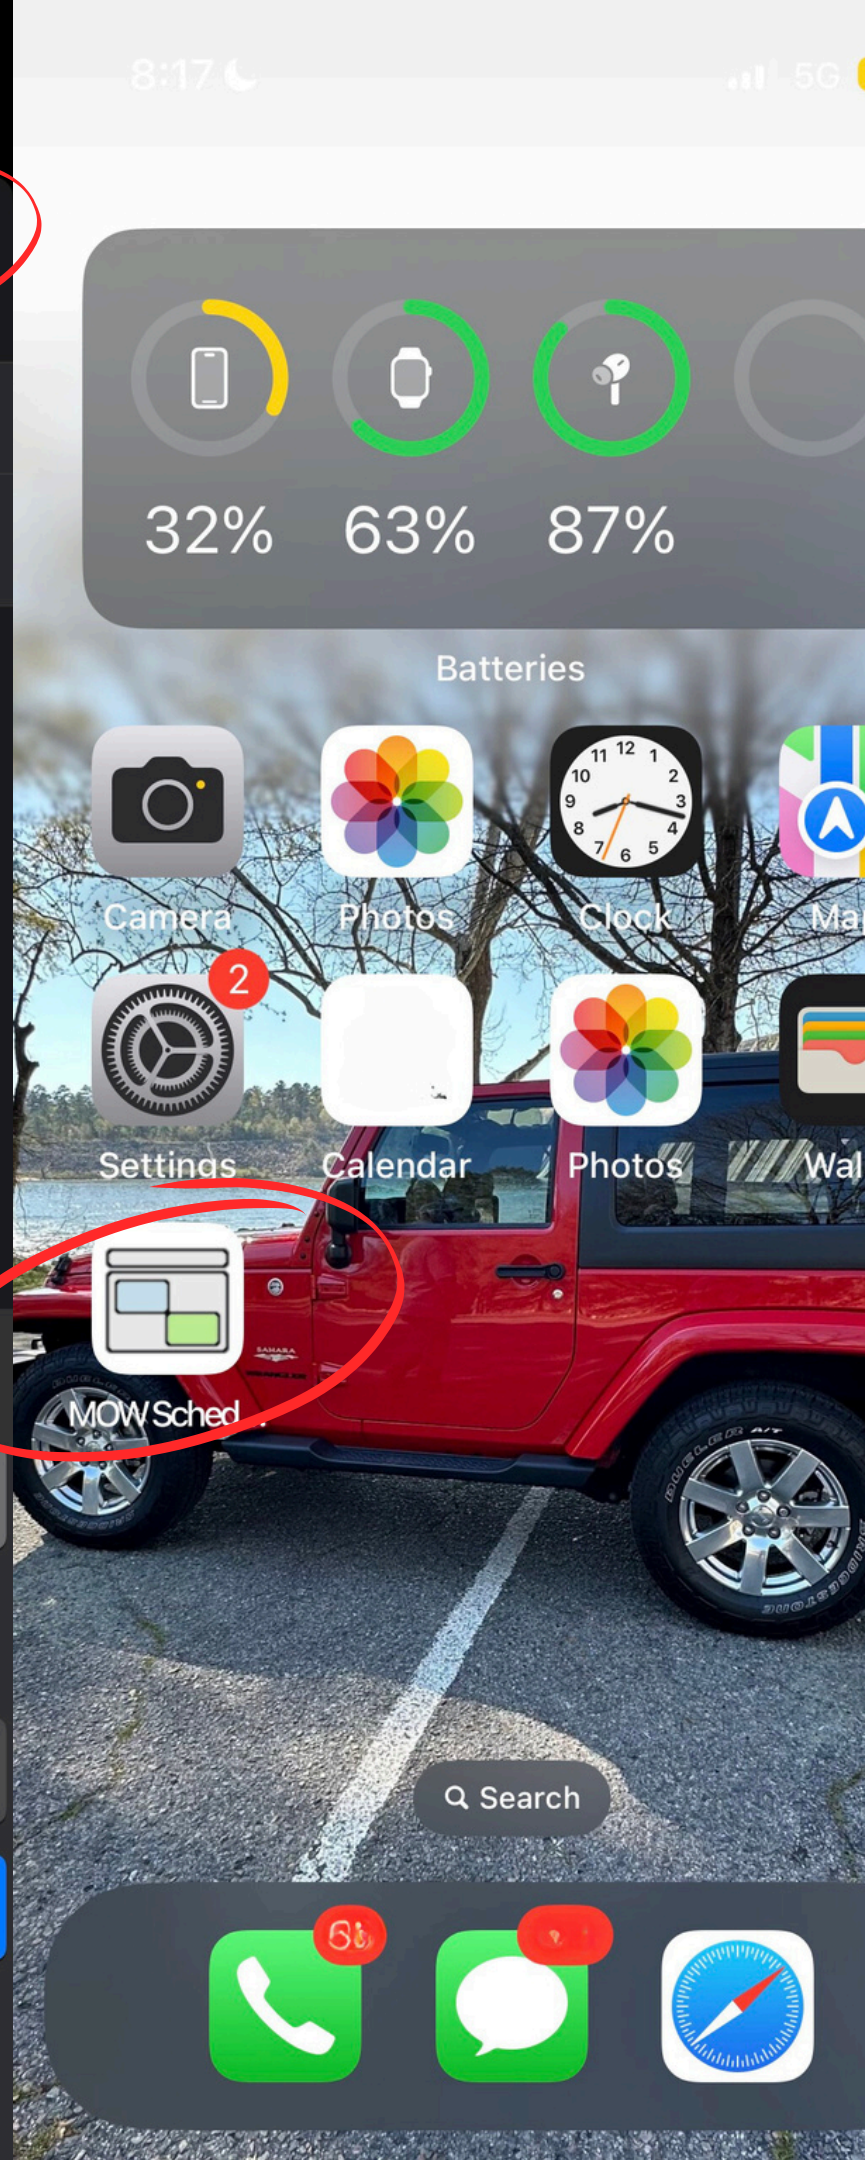

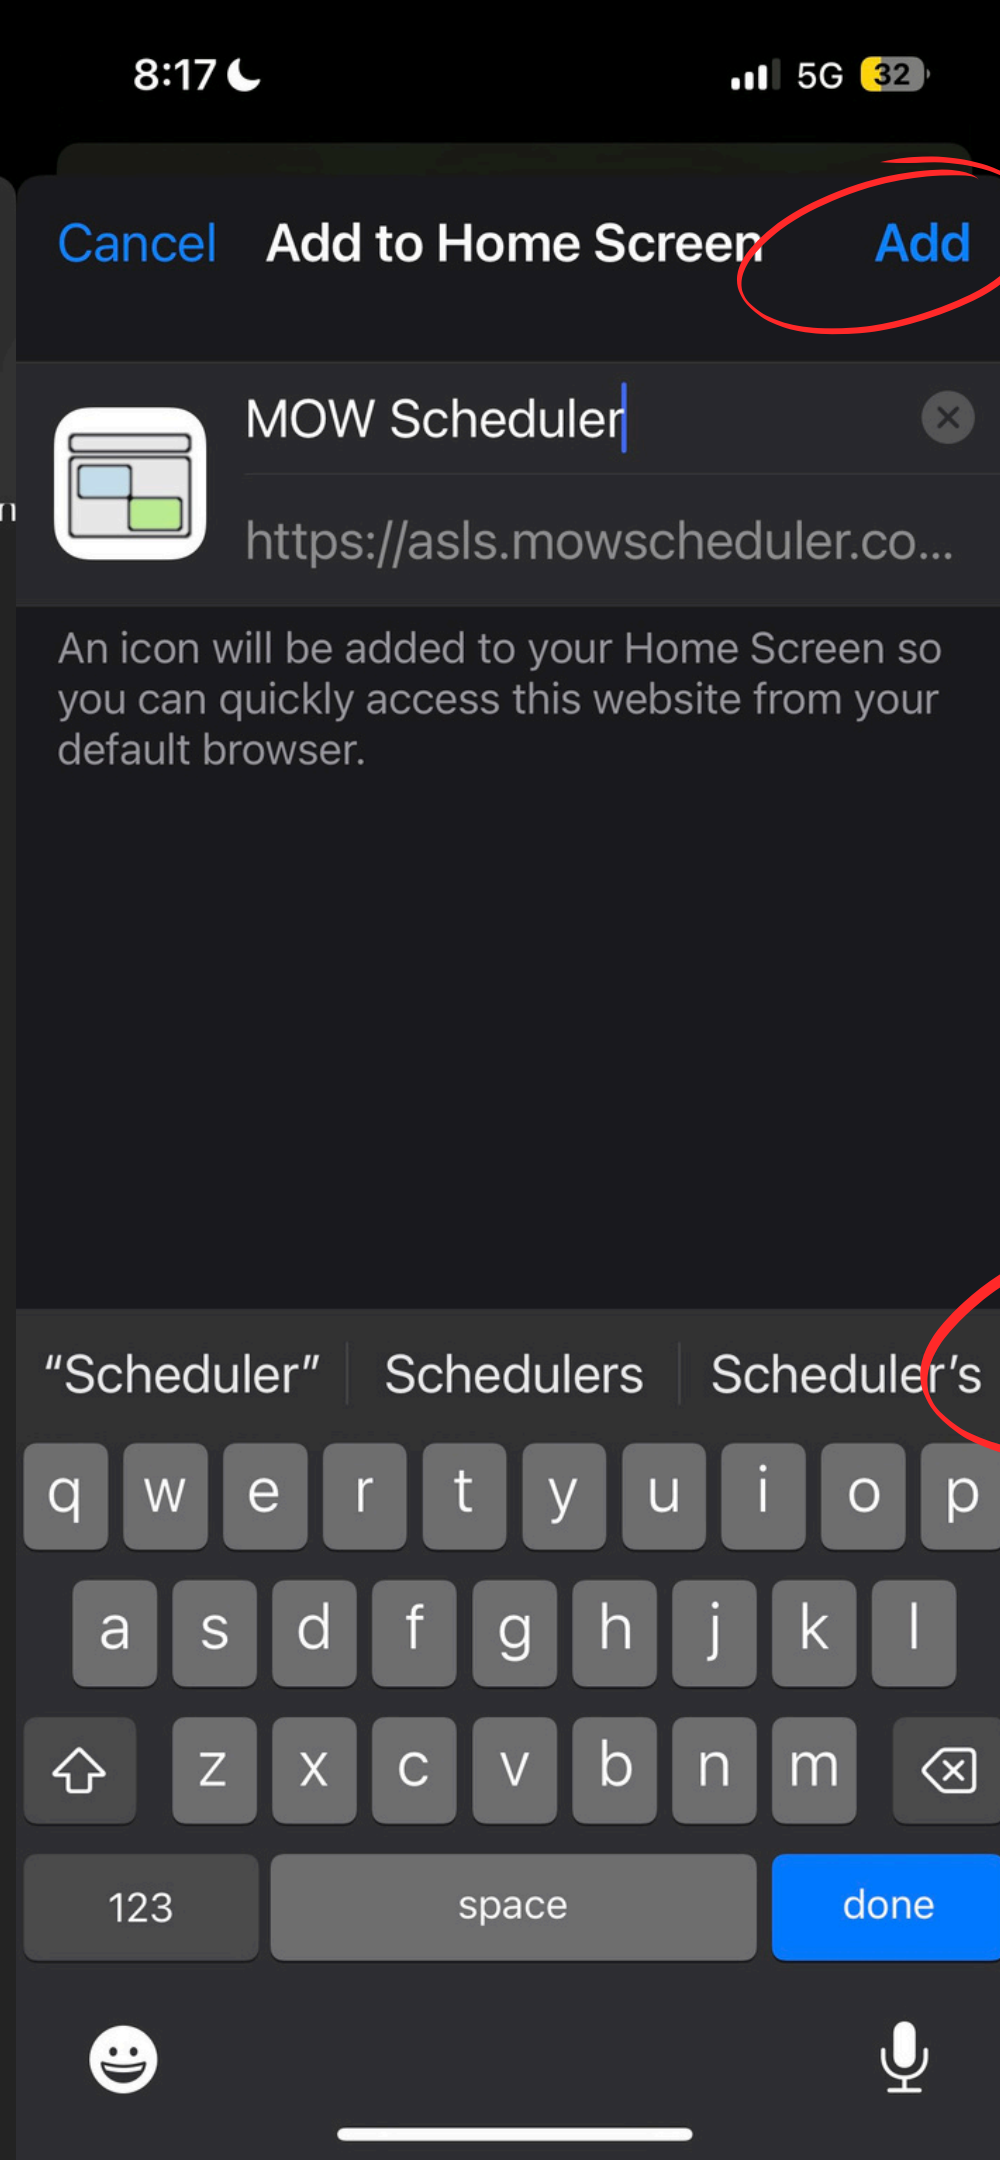

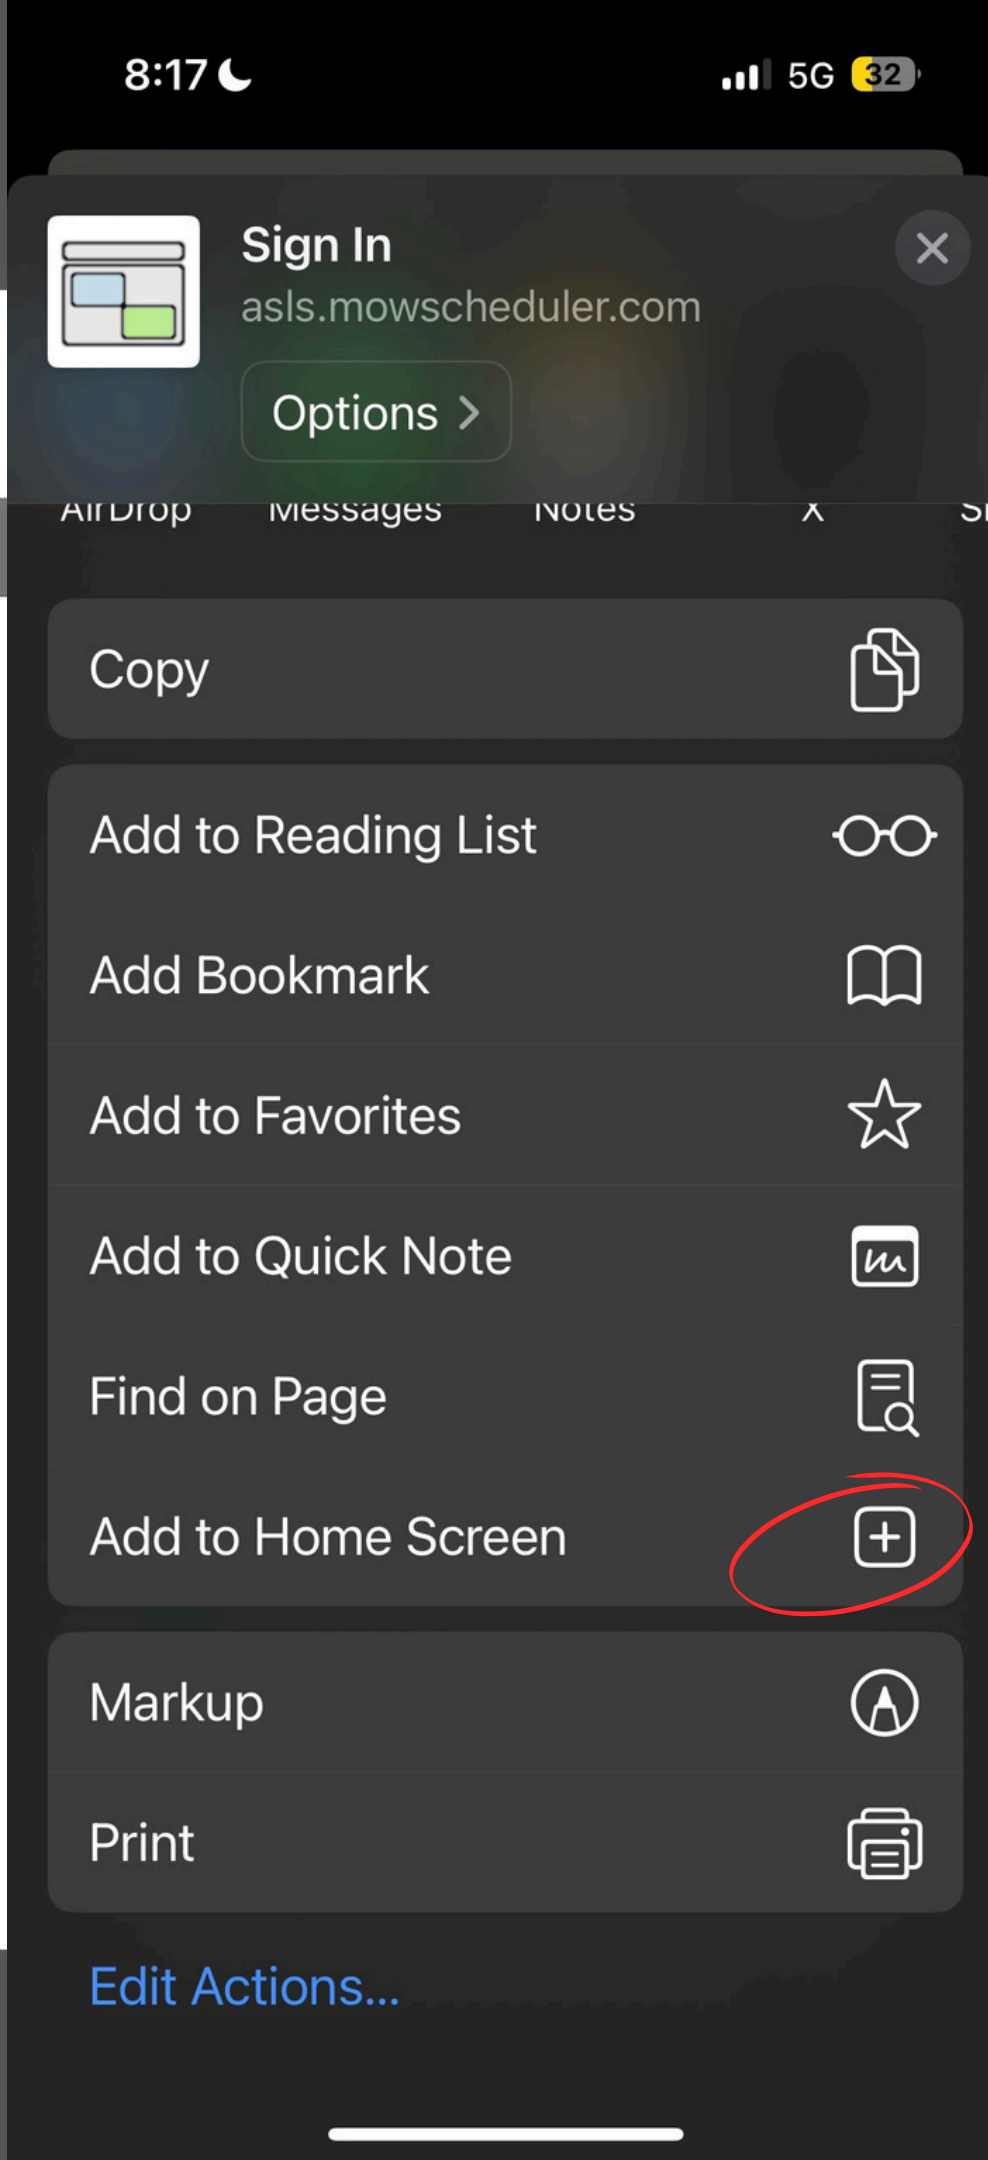

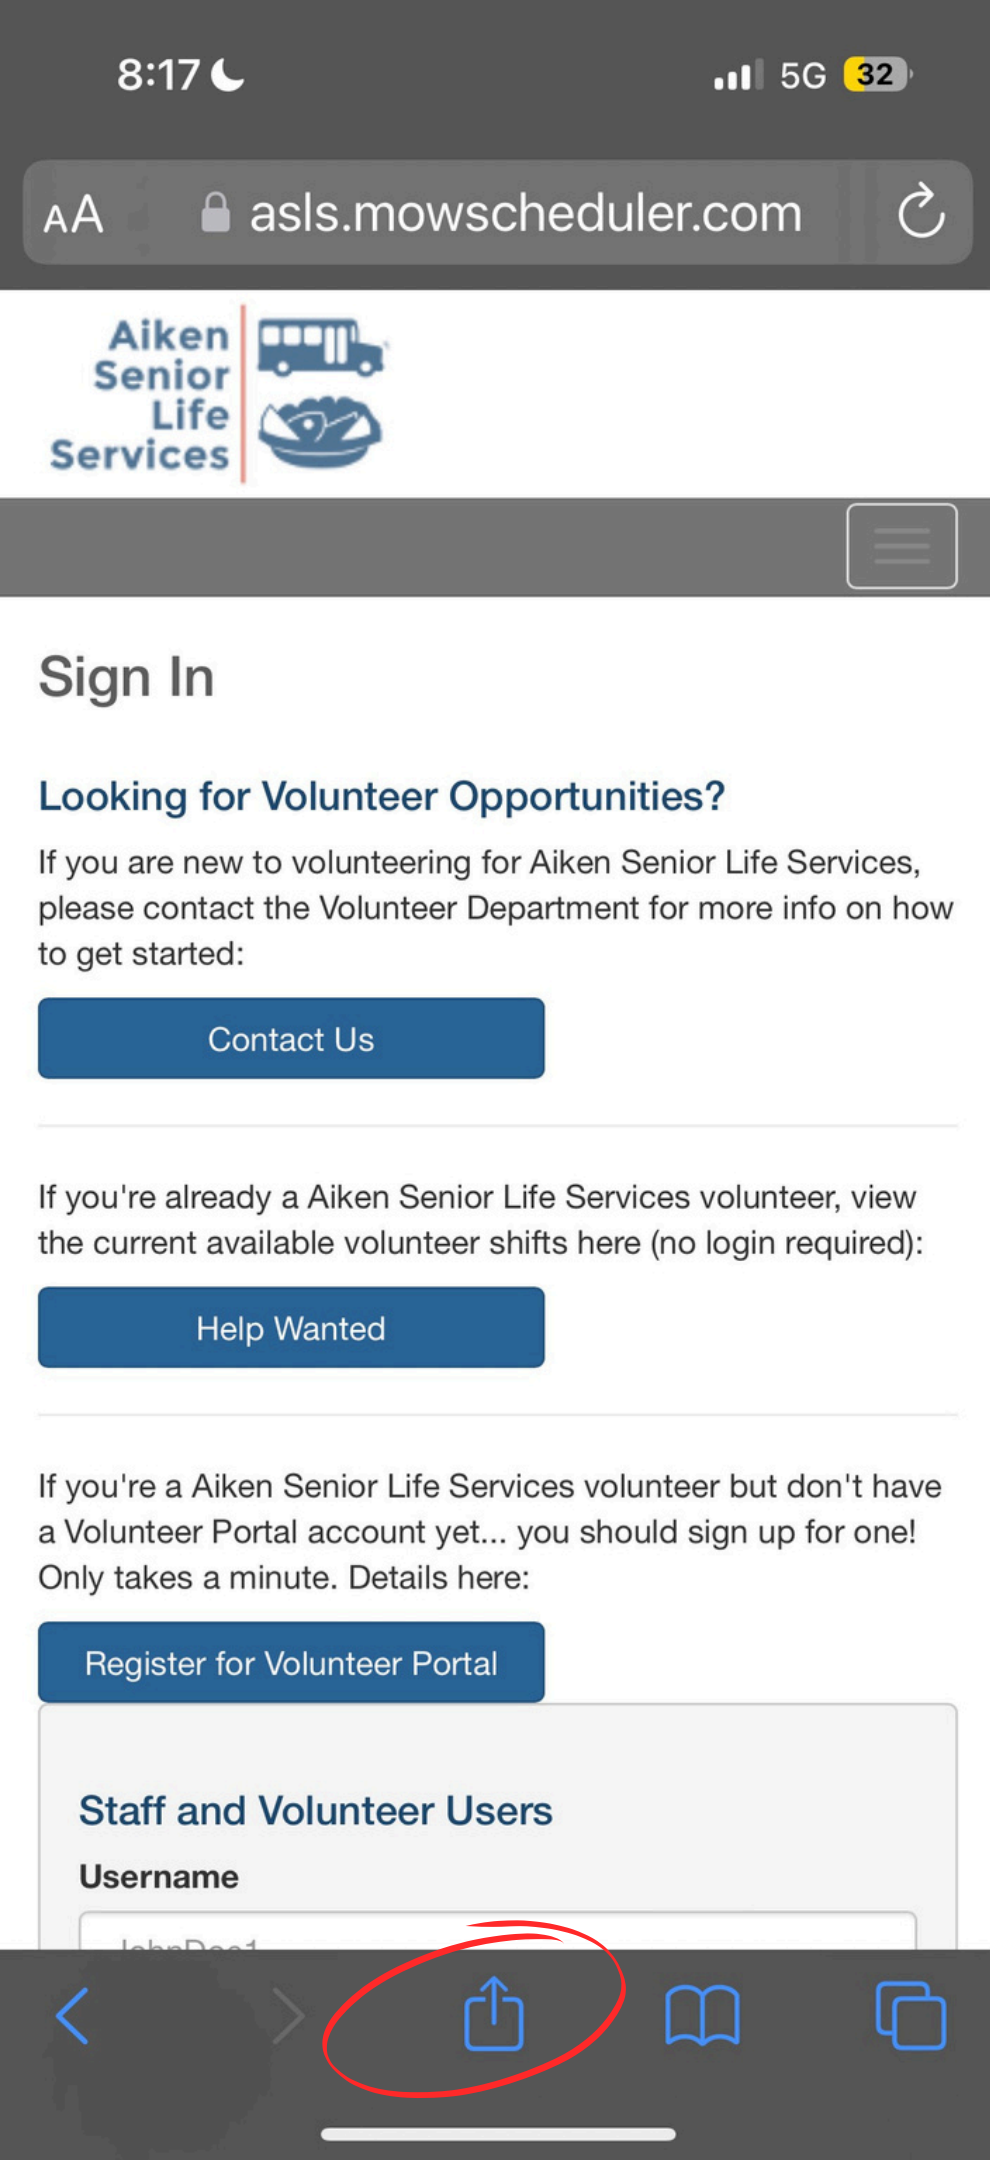

MS Edge

Edge doesn't support the applicaton-specific install buttons, but there is an option labeled "Install this site as an app" under the *Setup > Apps* menu. After installing, the MOW Scheduler application is available on the Start menu and may be pinned to the taskbar.

Apple Safari - Mobile

Safari doesn't support the applicaton-specific install buttons, but there is an option to install the web app under the *Share* menu.
